

Dear FCC,  
Stop infringing on our First Amendment rights. Big Business (NAB) might have the money, but they do not have the support of satellite radio listeners and millions of other US citizens who want to listen to what they want when they want. The FCC has no right to determine what I listen to, which is the reason I subscribe to satellite radio.

Every day I need instant traffic reports timely and do not have time to wait and listen to the partial reports broadcasted by the network stations (NAB).

Please Leave us alone!

Thank you,  
David Wenhold
